

Comparative / fair testing

Changing one variable to see its effect on another, whilst keeping all others the same.

Research

Using secondary sources of information to answer scientific questions.

Observation over time

Observing changes that occur over a period of time ranging from minutes to months.

Pattern-seeking

Identifying patterns and looking for relationships in enquiries where variables are difficult to control.

Identifying, grouping and classifying

Making observations to name, sort and organise items.

Problem-solving

Applying prior scientific knowledge to find answers to problems.
